

**IN THE SPECIFICATION**

**Please amend the paragraph on page 2, lines 12-14 as follows:**

- Transmitting part ~~77-1~~75-1 that is connected in series to the outgoing route of the router 74-1 and whose output is connected to the transmission input of the antenna duplexer 72-1.

**Please amend the paragraph on page 2, lines 15-18 as follows:**

- Controlling part 76-1 having input/output ports that are connected to the control terminals of the receiving part 73-1, the router 74-1, and the transmitting part ~~77-1~~75-1, respectively, and a communication port that is connected to the one end of the above-mentioned communication link 83-1.

**Please amend the paragraph on page 4, lines 7-10 as follows:**

In the radio base station 70-1, when recognizing the handover request confirmation, the controlling part 76-1 sends the handover request confirmation to the terminal 82 via the transmitting part ~~77-1~~75-1, the antenna duplexer 72-1, and the antenna 71-1 (indicated by symbol (e) in Fig. 7).
